SUSTAINABLE ENVIRONMENT

Environmental sustainability aims to improve the quality of human life without putting unnecessary strain on the earth's supporting ecosystems. It is about creating an equilibrium between consumerist human culture and the living world. We can do this by living in a way that does not waste or unnecessarily deplete natural resources. Environmental sustainability is important because of how much energy, food and human-made resources we use every day. Rapid population growth has resulted in increased farming and manufacturing, leading to more greenhouse gas emissions, unsustainable energy use, and deforestation. As individuals, we can take small but effective steps towards a more sustainable lifestyle like switching to reusable products to reduce our dependence on single-use plastics. From a corporation's perspective, environmental sustainability may involve switching to renewable energy in warehouses, factories and offices or cutting down on single-use plastics in manufacturing.

MANIFESTATION

The word 'manifestation' means to create something or turn something from an idea into a reality. It is the conscious creation of the circumstances and outcomes that make for a fulfilling life. Manifestation might sound like something that only happens in studios, but the practice of creating intentions and then watching them appear can have a real place in business. Manifesting success is less about wishing and dreaming and more about defining your goals and setting the stage to make them happen with practices such as visualization and affirmations. This practice takes root in the idea that you have the power to create the life that you desire; all it takes is a little focus, determination and faith.

AUGMENTATION

Augmentation is the act or process of augmenting something - adding to it in a way that makes it bigger or better. The general sense of augment is used in a variety of contexts where something is literally or figuratively increased in size, number, shape, value, or in some other way. Augmentation has the potential to improve our health, entertainment, productivity, and overall quality of life. A tool never becomes a part of your identity, but an augmentation almost surely has to. Machine or device can be described as augmentable when other parts can be added to it to improve it in some way or give it additional functionality. Augment is also used in much more specific ways in the context of music and grammar.

TAKE AWAYS

1. Providing a platform for academicians, corporate, research scholars, students and freelancers to contribute towards the vision of the conference with the blend of their experiences.
2. Fostering research skills and abilities in core and non-core domains of the participants.
3. Contributing towards resourceful knowledge and ideas to carve a niche for sustainability, manifestation and augmentation.
4. Providing an opportunity to all participants for networking and collaboration in future research projects / endeavors.
5. Fostering ISSN publication opportunities.
6. ISBN Edited Book with DOI.
7. Recognizing achievements / excellence in academia.

SPECIAL MINDS

Special Minds, India continues to design and execute programs in the multi-functional areas. It shapes holistic advancement in the personal and professional spheres. UNIFACVEST UNIVERSITY

Centro Universitario UNIFACVEST, a multi-disciplinary university offering undergraduate, graduate, Masters and Doctoral programs as well as diplomas, aims to be a Higher Education Institution recognized by the government, society and citizens, as a reference in terms of the quality and excellence of its services in the area of education, training professionals committed to improving the quality of life and the preservation of the political, cultural and socioeconomic space. Thus, being among the best private universities in Brazil, the university is motivated to offer excellent services with social responsibility.

Located on Avenida Marechal Floriano, in the city of Lages (Santa Catarina), the UNIFACVEST Campus occupies an area of approximately 26,000 square meters, fully used with buildings, walks and sports and leisure areas. The structure has 109 classrooms and 81 laboratories, in addition to a modern library with a collection of 70,000 volumes. It also has 5 thousand square meters for squares and social areas for academics, with shops, banks and food court. The sports complex has an athletics track, soccer field and multi-sport courts. For events, the Campus has a theatre with capacity for 500 people, in addition to an auditorium with capacity for 100 people. The social role is played at the Casa da Cidadania, where academics apply what they have learned in practice, solving community problems.

ST. JOSEPH UNIVERSITY

The vision of St. Joseph University Dimapur, Nagaland is to learn, discover, create and innovate; and to become global leaders with vision and values for a new world to come. St. Joseph University was established by DMI Foundations which is an effort of the sisters of DMI (Daughters of Mary Immaculate) and the fathers of MMI (Missionaries of Mary Immaculate) of the Catholic Church. The DMI Foundations is a Global philanthropic Organization working in many Countries such as United States of America, Germany, Brazil, Tanzania, Zambia, Malawi, Ethiopia, South Sudan, and India through Universities, educational institutions and philanthropic services.

The university is providing a unique curriculum, with choice-based credit system, having flexibility, so that students depending upon their interests and aims can choose interdisciplinary, intra-disciplinary and skill-based courses which make them more employable. At St. Joseph University, we are committed to the pursuit of knowledge, research and creativity towards entrepreneurship and leadership. The Student-centered learning is aimed at employable education in the changing global situations and ensuring personal and intellectual excellence towards productive careers, meaningful lives and responsible citizenship.
